Katowice, 29 May 2025

I confirm that we have cooperated and still continue to cooperate with **Łukasz Kaczyński**, and I recommend him to anyone looking for a professional SAP FI/CO consultant.

In our company, he played a key role during the implementation phase as well as later in the ongoing system maintenance. His support is especially crucial during critical moments such as month-end closing, when speed and availability are essential because we work under the pressure of timely reporting to the corporate group.

Łukasz stands out with his strong proficiency in finance and deep understanding of the interconnections between the FI/CO modules and other SAP modules (SD - Sales, MM - Materials Management). He is able to propose comprehensive solutions that take into account both financial and operational aspects. He quickly identifies and resolves issues, enabling the company to operate smoothly even in the most demanding situations.

As a CFO, I also appreciate his proactive approach, effectiveness, and ability to communicate clearly and understandably. He has contributed to improving our business processes and increasing their efficiency.

Based on my experience, I strongly encourage establishing cooperation with Łukasz Kaczyński, as he brings real value to the organization and genuinely supports the financial area.

Michał Biliński

Financial Director
